

## OVERVIEW

The Park Hill Professional Studies Program provides a semester course that offer students an opportunity to gain real life healthcare skills in an experiential learning environment. In addition, students observe real healthcare situations throughout the Saint Luke's North health system to gain a better understanding of a healthcare provider's role.

## INTERNSHIP HIGHLIGHTS

### CONNECTING CLASSROOM LEARNING AND PROFESSIONAL EXPERIENCES

### 25 AREAS OF

### HEALTHCARE

## ADDITIONAL INFO

Students alternate shadowing and class time each week.

Students manage individualized schedules.

Students practice communication skills and make arrangements to make up hours missed.

Students adhere to the professional dress expected in the profession.

Students hear a variety of healthcare professional guest speakers.
